

**JJ Plastalloy Pvt. Ltd.**

# Black Masterbatches

## Fiber, Non-Woven, Multifilament Applications

- Very fine particle size Carbon Black Used thus lowering the Filter Pressure Value of Masterbatch and ultimately leading to improved productivity
- Bluish Undertone of Black Masterbatches
- Available in PP, PE, PET as base resin
- Very much suitable for fine denier yarn, low GSM Non-Woven applications
- Product has very good UV Stability hence can be very well used for outdoor applications
- Excellent Dispersion
